The patent term adjustment to date is 3 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 3 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (http://pair.uspto.gov)

## Notice of Possible Fee Increase on October 1, 2002

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after October 1, 2002, then the amount due may be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there may be an increase in fees effective on October 1, 2002. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Notice of Proposed Rulemaking, 67 Fed. Reg. 30634, 30636 (May 7, 2002). Although a change to the amount of the publication fee is not currently proposed for October 2002, if the issue fee or publication fee is to be paid on or after October 1, 2002, applicant should check the USPTO web site for the current fees before submitting the payment. The USPTO Internet address for the fee schedule is: <a href="http://www.uspto.gov/main/howtofees.htm">http://www.uspto.gov/main/howtofees.htm</a>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of any fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after October 1, 2002 (or mailed with a certificate of mailing on or after October 1, 2002), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

## **DETAILED ACTION**

## **Drawings**

New corrected drawings are required in this application because drawings filed on August 14, 2000 have been objected to by the draftsperson as indicated on Form PTO 948. Applicant is advised to employ the services of a competent patent draftsperson outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

## Allowable Subject Matter

Claims 1-6 and 8-16 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest the pickup tool as recited by claim 1, particularly the first valve apparatus for controlling separately and independently the vacuum to the ball seats, the vacuum retaining the solder balls on the ball seats, and the second valve apparatus for controlling separately and independently the gas under pressure to the ball seats, the gas under pressure for releasing the solder balls from the ball seats.

The prior art of record does not teach or suggest the pickup tool as recited by claims 8 and 15, particularly the first controllable valve apparatus for controlling opening and closing the vacuum passageway and the second controllable valve apparatus for controlling opening and closing the pressurized gas passageway.

Application/Control Number: 09/639,486

Art Unit: 1725

The prior art of record does not teach or suggest the pickup tool as recited by claim 10, particularly the first controllable valve apparatus controlling the vacuum, the vacuum retaining the solder ball in each said ball seat, and the second controllable valve apparatus controlling the pressurized gas to said ball seat, the pressurized gas for releasing the solder ball from the ball seat.

The prior art of record does not teach or suggest the pickup tool as recited by claim 12, particularly the tubular ramp for feeding solder balls to the ball seat, the ramp having the upper end and the lower end, and the controllable valve at the lower end of the ramp for releasing the single solder ball to the ball seat while the vacuum is applied to the ball seat.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James R Duzan on August 26, 2002.

The application has been amended as follows:

Application/Control Number: 09/639,486

Art Unit: 1725

In the claims:

Claim 8, line 12, after "controlling opening", replace "an" with --and--.
